

# Alaska Pharmacists Association

## RE: 2010 Corporate Membership

The Alaska Pharmacists Association (AkPhA) as the largest volunteer organization of pharmacists in the state of Alaska represents pharmacists before legislative and regulatory bodies and works closely with the Alaska Board of Pharmacy.

I am writing to encourage you to support the association as a **Corporate Member** for 2010. We feel your support benefits *all* parties- management, pharmacists, AkPhA, hospitals, and community pharmacy.

*AkPhA is the strongest advocate for pharmacy in the state of Alaska.*

During the 2010 legislative session, AkPhA will work with Caren Robinson, AkPhA lobbyist through coordinated efforts of active AkPhA Legislative, Community Affairs, Membership and Continuing Education committees. In that effort, plans are being made for a legislative fly-in to Juneau in late March, early April to develop relationships with key legislative leadership and key opinion leaders.

### **2010 Legislative Priorities**

- Pharmacy Benefit Manager (PBM) Standards SB38- Legislation would institute standards for payments/audits, drug substitution and rebate transparency from the PBM to the covered entity.
- Support Health Care Professions Loan Repayment & Incentive Program (HCPLRIP) SB139
- Oppose legislation that would limit generic substitution of all or certain therapeutic classes of drugs (ie. Anti-seizure drugs)
- Monitor legislation of bills potentially affecting the practice of pharmacy (ie. Prescriptive authority for other professions)

In addition to supporting your professional association as a corporate member (nonvoting and *in addition to your individual voting pharmacist membership*) please consider supporting the AkPhA-PAC. The political action committee, established in 2005 needs your financial support to influence legislation affecting your profession.

*Contributions/checks can be made payable to:*

AkPhA-PAC  
Attn: Leif Holm, Treasurer  
167 S Santa Claus Lane  
North Pole, AK 99705
